

**PROACT**

VLS

Video Laryngoscope System  
Adult, Paediatric and Neonatal Use

Sharp Vision

Smooth Intubation

**PROACT**

VLS

Enhanced Vision

300+ minutes continuous use

High Resolution Touch Screen Display plus External HDMI for Team Training

Simple single press for Image Capture or long press for Video Capture

Adult/Paediatric or Neonate Handle options.

COMBI blade and handle covers with multiple options.

## Connectivity & Compatibility

- **Real-Time External Display:** HDMI cable allows live feed to larger screens for training, monitoring, or documentation.
- **Reliable in Any Setting:** Designed to operate in challenging environments from -10°C to +50°C, humidity up to 85%, and wide pressure ranges.

# Clear, Crisp & Consistent

## Precision Meets Affordability

- **High-Definition Imaging:** Equipped with a 1280 x 720 HD CMOS camera and a HD display for crystal-clear visualization.
- **Powerful Illumination:** 800 lux LED light ensures enhanced visibility in all conditions.
- **Comprehensive VLS Kit:** Full-range package offers top-tier performance at a highly competitive price point.

## Innovative, Disposable Design

- **All-in-One "COMBI" Covers:** Single-use handle and blade covers protect against cross-contamination and eliminate the need for complex cleaning.
- **Ergonomic & Versatile:** COMBI covers available in multiple sizes, from neonatal to adult, with both direct and angulated Mac blade options.

## Full range of blade sizes for both Adult / Paediatric & Neonates

**COMBI Disposable Covers** - Available in two configurations, Adult/Paediatric and Neonatal, each system includes its own full range of single-use blade and handle covers. From neonatal Miller 00 to difficult airway MAC 4 DA, every airway is covered.

### Adult / Paediatric

Uses Adult Handle

### Neonatal

Uses Neonatal Handle
